

MIRZOYAN

NAREK

Front-End Engineer

ABOUT ME

Front-end developer focused on building responsive and high-performance web applications. I work with React, TypeScript, and Tailwind CSS to deliver clean UI and smooth user experience. I'm passionate about clean code, attention to detail, and continuous learning. Open to freelance and full-time remote work.

EXPERIENCE

Front-End Developer (Personal Projects)

Smart Code

- Practicing modern front-end development using React and TypeScript
- Focused on clean UI, reusable components, and responsive design
- Working with Tailwind CSS and REST APIs (axios/fetch)
- Improving performance through lazy loading and optimization techniques
